Retail Scanners

	**WD100 / WD200** Durable, pen-style reader, black/silver colour, metal. TTL un-decoded/KBW/RS-232/USB versions (with external decoder) available
	**WD300** Durable pen-style reader, beige colour, ABS plastic housing, with integrated interface. KBW/RS232/USB versions available.
	**SD200 / SD300** Economy model CCD scanner, 60/80mm reading window. Very good reading characteristics, mechanically strong housing at low costs. Multi-interface USB, KBW, RS232. Select interface from barcode menu
	**SD1000 / SD2000** A well-designed economic handheld CCD scanner with "high performance and most cost effective solution". Middle reading distance 100/20mm,75/70mm reading window,75 scans/second, 4-in-1 interface.
	**SG100** Smallest gun-grip CCD scanner available, very well suited for usage with small hands (females) Up to 210mm reading distance, 100 scans/second. Multi-interface (RS232/USB/KBW)
	**SG300** Long range gun-grip CCD scanner. Also suitable for light industrial and warehouse applications. Up to 270mm reading distance, 270 scans/second. Multi-interface (RS232/USB/KBW)
	**SG300RFM** Long range gun-grip CCD scanner with RF data transmission capabilities. Besides host interfacing, base station also acts as charging device. RS232, USB or KBW versions of the base station are available.

	**LG300** Gun-grip laser scanner. Also suitable for light industrial use. Available with a choice of scan engines from respectable manufacturers. Multi-interface (RS232/USB/KBW)
	**LG160** Smallest gun-grip laser scanner available, very well suited for usage with small hands (females) Up to 210mm reading distance. Multi-interface (RS232/USB/KBW)
	**VEGA** Latest design in handheld barcode scanning. Area Imager (2D) and linear Imager (1D CCD) versions available. Vega scanner characteristics are superior. Multiple interfaces are available (RS232C/KBW/USB)
	**SIRIUS S-7030** An ergonomically designed housing with integrated omni-directional laser scan engine. 20 scan-lines, 1350 scans/s. Multiple interfaces are available.
	**NEXUS N-3030** Presentation scanner for limited space environments. Omni-directional laser scanner. 24 scan lines, 2480 scans/s. Multiple interfaces are available
	**POLLUX P-4010** Vertical fly-by scanner for most demanding retail applications. 20 scan lines, 2000 scans/s. Multiple interfaces are available
	**CASTOR C-5010** The flattest horizontal fly-by scan solution available in the market. Different reading glass options available. 15 scan lines, 1500 scans/sec. Multiple interfaces are available.
	**Shuttle SG-15** Price verifier for price checking applications. Omni-directional and single line versions are available. Wireless, TCP-IP and PoE versions are available in colours Red, Black and Silver.
	**Discovery SG-20** Customer information and/or price checking terminal. Omni-directional barcode scanner integrated. Wireless, TCP-IP and PoE versions are available in colours Red, Black and Silver.
